

## **Forklift Safety Week 2020**

The Australian Forklift and Industrial Trucks Association has been presenting Forklift Safety Week since 2011. In light of the COVID-19 restrictions, we are moving this initiative online for this year.

A series of four seminars will be presented over two weeks commencing 17 June 2020.

These seminars are aimed at safety managers, operations managers, team leaders and anyone responsible for the safe operation of forklift and industrial trucks in Australia.

The topics covered are essential knowledge for anyone involved in the use of forklift and industrial trucks.

The seminars will be presented using the Zoom conferencing platform. Each seminar will be approximately one hour in duration, consisting of 40 minutes of presentation and 20 minutes of questions.

To enable people to attend individual sessions, separate bookings need to be made using the TryBooking links below. Please note there is no charge to attend these sessions.
